

Fun With Physics: SKY DROP

HAPPY
15th Anniversary
SKY DROP

The Sky Ride at Lagoon takes guests from the North end of the park to the South. On Physics Day, it also becomes the drop location of dozens and dozens (even hundreds and hundreds) of eggs for the contest, the Sky Drop!

- 1.) What do you predict will happen if an unprotected egg is dropped from the Sky Ride...
 - a.) into a large bucket of water?
 - b.) onto a big sack of fluffy feathers?
 - c.) onto a bouncy trampoline?
 - d.) What else could we drop an unprotected egg onto?
