

Fun With Physics: WHICH IS HOTTER?

Did you know that black objects absorb most of the heat from the Sun and white objects reflect most of the heat from the Sun?

Look around you while you are walking around Lagoon and fill in the table below. Make sure all objects tested are in the Sunlight.

Estimate the temperature on a scale of 1 to 5, 5 being the hottest.

Object	Color	Temperature				
		1	2	3	4	5
	Black	1	2	3	4	5
	White	1	2	3	4	5
		1	2	3	4	5
		1	2	3	4	5
		1	2	3	4	5
		1	2	3	4	5
		1	2	3	4	5

Explain why it is important to wear sunscreen when you are skiing or snowboarding.
